

THE ONLY PLACE IN SALINA

Where You Can Really Buy Your Boots and Shoes Cheap is at The Fred G. Haas Boot and Shoe Parlor.

WE POSITIVELY CLAIM

That we can and do sell your Boots and Shoes cheaper than any other boot and shoe concern in Kansas, and we sell at least 25 cents cheaper on every dollar than any of our Salina competitors can.

Our Reasons are Many, and you can see at a glance that which

"WE CLAIM IS TRUE!"

Comparison:

Competitors:

- 3 times the expense.
- 3 times the profit on 1 pair of boots and shoes.

Are in other words: We conduct our business on one-third the expense of any other boot and shoe concern in Salina.

And above all: We sell more boots and shoes to-day than any one boot and shoe house in the city.

CAN WE SELL BOOTS AND SHOES THE CHEAPEST?

There is no doubt about it, and we prove it every business day to those who are fortunate enough to trade with us.

We do not carry shoddy truck, nor cheaply gotten up goods. Don't want them; nor do we want that trade.

We give you good honest leather and workmanship at a price that all can buy.

We want your trade at two-thirds less profit than you have been paying other shoe dealers.

On Saturday M. S. Amos, of Brookville brought to this city the intelligence of the death of Roger, son of Treasurer James L. Dick of Ellsworth county. Capt. L. D. Dobbs, of Garnett, Kas., is rehearsing the war drama "The Tennessee Scout" for Wednesday, Thursday and Friday nights of next week, at the opera house. THAT NORTH AND SOUTH ROAD.

The Charter Filed for a Railroad Likely to Pass Through Salina to Galveston—Supported by the Union Pacific and Atchafalaya.

A charter was filed Friday with the secretary of state for the Omaha, Kansas Central & Galveston Railroad company, headquarters of which are at Lyons, Rice county. The company proposes to construct a line of railroad and telegraph from Omaha to Galveston, estimated at 900 miles in length, passing through the following Kansas counties: Republic, Jewell, Smith, Cloud, Mitchell, Osborne, Ottawa, Lincoln, Russell, Saline, Ellsworth, Barton, McPherson, Rice, Harvey, Reno, Stafford, Sedgewick, Kingman, Pratt, Sumner, Harper and Barber. The directors are Valdemir Sillo, Gustavus A. Buck, Jacob Newberber and George H. Barley, New York City; D. M. Bell, Alouzo Tones, C. M. Rawlins, Lyons. Capital stock \$18,000,000.

C. M. Rawlins, of Lyons, was in Topeka Friday to file this charter. Mr. Rawlins has just come from New York where he has been to perfect financial arrangements for the proposed road, and he states that his efforts have been entirely successful. All the money required, he says, is provided for. This is contrary to the usual rule in railroad corporation. Charters are generally obtained first and then hustle for the funds afterwards. Work on the proposed line, Mr. Rawlins says will begin at Superior, Neb., near the Kansas line, at which point a branch of the Chicago & Northwestern terminates. This fact is significant and leads to the conclusion that new road is a venture of the Union Pacific, which is closely allied with Northwestern. The Union Pacific would certainly find a line to Galveston through Central Kansas a very desirable one. It is thought that the work on the proposed line will begin soon.—Topeka Capital.

BAYHA-WARNER.

Last Tuesday at the residence of Mrs. A. H. Gibson, on South Seventh street occurred the wedding of Mr. W. R. Bayha, of St. Louis, and Miss Nellie Varley of this city. Only the immediate family were present. The newly married couple left on the midnight train for St. Louis their future home.

The acreage of wheat in Dickinson is much larger than it has been for a good many years. If not larger than ever before, for the greater part of the wheat we can say, it looks as fine as we ever saw it. The weather has been all we could have wished for and we believe the wheat is going into winter in fine condition and we will have a good crop.—Hope Dispatch.

We hear now that customers who patronize the new miller, Mr. Hyette, have to bring more sacks than they were accustomed to do. The breadmaker at our house says the flour made at this mill called the Eclipse, can not be eclipsed. We asked Dave Macomber whether it is the miller or the engineer. Of course Dave is modest.

THE HESSIAN FLY.

The Hessian fly is doubtless in the volunteer and early wheat, but with plenty of pasturing it is thought the crop will not be greatly damaged. Horses, cattle, sheep and hogs thrive on wheat pasture.

James Buttr, in answer to our inquiry whether the fly was eating his wheat, said his cattle was eating it.

J. W. Adams says sheep are a good thing to eat both rye (pasture) and fly.

C. S. Everhart, I guess there is some fly in my early wheat but I am not worrying about it.

Mr. Swan Brodine claims that the Farmers' Alliance can't lose more than 1 cent per bushel in shipping their wheat, and as that is Swan's commission so that is not lost by a darn sight. Is it, Swan?

The rain had the other Sunday was worth speaking of. We now have a crop insured for next year.

Pastor Floren, of Salina was describing his trip to Sweden at the S. E. L. church, of Salsburg, last Monday evening. The people were anxious to hear anything about the old country.

Mr. Barton, of the Chicago Lumber Company, says that he has had a better trade in this section of Kansas than in any other section. Mr. Alfred Hawkins, our stock buyer, has the reputation (and justly too) of paying better prices for hogs and cattle than any other buyer in this section, as a result stock from a large scope of the surrounding country is marketed here.

LINDSBORG.

(From the News.)

MARQUETTE.

(From the Tribune.)

Our city council are doing a work that will be commended by every citizen, in the crossing to the two churches.

Squire Erikson has rented a room in the opera block and fitted it up for an office, where all trials before his court will be held in the future.

Will Hamilton one of Marquette's boys who has spent the past year in Iowa, came in Saturday evening and will probably remain with us permanently in the future which will be welcome news to his many friends.

Marquette can consider herself very fortunate in securing Mr. C. Putman and family as her citizens.

Mr. Putman will do work on enlarging and putting in new machinery at the mill about the 1st, and as soon as the work can be finished in about six weeks Marquette will boast of one of the most flouring mills in the Smoky Valley.

On one point Marquette enjoys the distinction of leading any other town in this section of Kansas that is as a stock market. Mr. Alfred Hawkins, our stock buyer, has the reputation (and justly too) of paying better prices for hogs and cattle than any other buyer in this section, as a result stock from a large scope of the surrounding country is marketed here.

THINK OF THIS A MOMENT.

New Mexico presents peculiar attractions to the home seeking farmer. What are they? Here is one of them: Cultivable land bears so small a proportion to total area, that home demand exceeds supply, and that means high prices for farm produce. And another: Development of mines and lumber interests causes a continually increasing need for food. For instance: Corn in New Mexico is worth 75 cts. per bushel when to Kansas it only brings 40 cts., and other things in like proportion. Irrigation, which is practiced there and costs little, insures a full crop every year.

You may sing of the beauty of springtime that glows on the cheek of the young. But I sing of a beauty that's rarer. Than any of which you have sung. The beauty that's beauty that charms us. Far more than the beauty of mere.

But this beauty is seen too rarely. The faces of most women lose the beauty of youth too soon. Female disorders are like frosts which come to nip the flowers which betoken good health, without which there can be no real beauty. If our American women would fortify themselves against the approach of the terrible disorders so prevalent among them, by using Dr. Pierce's Favorite Prescription, their good looks would be retained to a "sweet old age." This remedy is a guarantee cure for all the distressing weaknesses and derangements peculiar to woman.
